- Preteens girls

FEATURES:

- Television.
- Disco Light.
- Extender
- Salon
- Spa robe
- Retractable foot tubs
- Pedicure, manicure and facials

PATENT INFORMATION:

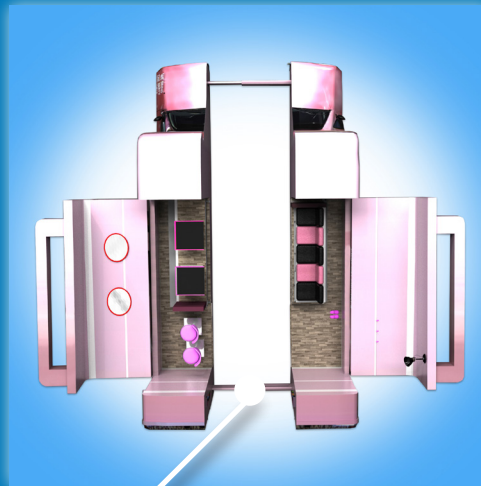

Patent pending.

SUMMARY:

My name is Taurus Daniels, and my invention is the Pretty and Pampered Spa Bus. This toy is designed from the concept of my original bus. My original bus was the Ford 450 passenger that was rebuilt like a mobile spa inside. The bus has a sofa with let out foot tubs that slide in and out, salon chairs, vanities with lights and lighted dance floor with disco lights. There is a hanger for the dolls to hang their spa robes.

The child can pretend to play with their dolls and give them pedicures, manicures, facial, glam makeup, and disco dance party with the doll. The doll comes with a spa robe and one outfit. The child can also do the doll hair, as well as pretend play to shampoo, dry and to style the doll's hair. The bus also has wheels and latch on the top so the child can transport the bus from one area to the next area. The outside of the bus will look like a spa bus and the bus will open so the child can pretend play easy with their dolls.

See how it works!

About the Developer

Taurus Daniels from Montgomery, AL, came up with this toy concept by being a spa bus owner. She witness how much fun the children are having on the bus and them wanting to paint their friends nails and do their friends Make-up. Children have always pretend play with dolls, that how they become parents in the world. She created a concept that they can pretend play with their dolls on a wonderful spa bus. Taurus contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that she may see success with this great idea and turn it into a real product. She is actively seeking a company that would have an interest in licensing the product for royalty. Working with Mars Rising Network, this essential new design concept was refined and prepared to be presented as a commercial product.
